

How To Connect to Toledo-Lucas County Public Library's Wireless Network

If you are not using a Windows based computer consider trying the following:

1. Click on your wireless network connection icon.
2. Click to "Available Wireless Networks."
3. Select T-LCPL or Buckeye Wireless, if you are a Buckeye subscriber, from the Available Wireless networks box.
4. Check the box Allow connection to unsecure network.
5. Click the button that says connect.
6. The wireless network connection icon should now show the connection.
7. Open Internet Explorer and attempt to visit a webpage
8. You are now connected to the Wireless Network.

Please keep in mind that every computer is different and the available wireless network cards all have specialized software to connect to wireless networks. Please consult with your owners manual or user guide when connecting to any wireless network.
